5141 Series

**Full Port Forged Brass Uni-Flange Ball Valves
w/ Detachable Rotating Flange
& Multi-Function Hi-Flow Hose Drain
Adjustable Packing Gland, Nuts & Bolts
SWT x Rotating Flange
600 WOG - ISO 9001**

Specifications: Designed for residential, commercial or industrial use with water or a glycol mixture. This approved Webstone valve is actuated by a blowout proof stem and features an adjustable packing gland. Flange features a conical inlet to minimize turbulence. The rotating flange is secured by a snug-fit snap-ring that provides greater control over positioning during installation. Multi-directional main valve allows for draining from either side of the pump. Solder joint temperature ratings are per ASME B16.18 Annex A for 95-5 solder. Other solder materials have lower pressure/temperature limits. Do not silver braze or overheat valves when soldering.
